

**SOUTH EAST QUEENSLAND**

A photograph of a modern kitchen interior. The floor is a light-colored, speckled decorative concrete. A white ceiling fan is mounted on the ceiling. The kitchen features dark grey cabinetry and a wooden island. A large window with a black frame is visible on the right side of the image.

### PRODUCT DISCLAIMER

While Hy-Tec always endeavors to match the colour, texture, appearance and quality of exposed concrete products and coloured products to the selections in the customer order, the raw materials used to manufacture exposed concrete products and coloured concrete products are natural products and subject to variations. Hy-Tec's exposed concrete products and coloured concrete products may also contain iron stone which could cause rust stains in the finished products. The colour, texture, appearance and quality of exposed concrete products and coloured concrete products in any brochure, display or other promotional material are indicative only. Hy-Tec does not represent, warrant or guarantee that the colour, texture, appearance or quality of exposed concrete products or coloured concrete products will match the selections in any customer order.

Hy-Tec's exposed concrete products have been designed with a high volume of aggregate to help ensure the best possible finish. Hy-Tec does not recommend placing exposed concrete products using a concrete pump. Each customer should obtain advice from the customer's contractor as to how best to place and finish the concrete. The contractor's advice and action may affect the quality of exposed concrete and the depth or consistency of exposure. Hy-Tec has no responsibility for the onsite preparations or placement techniques (including the adding of water or sugar or other additives) or finishing techniques (including the hosing or polishing of concrete) used by contractors. If a contractor uses water to wash off the top surface of exposed concrete or coloured concrete, Hy-Tec has no responsibility for such water entering drainage systems or waterways.
